

# HEDINGHAM SCHOOL AND SIXTH FORM

ACHIEVEMENT & EXCELLENCE

24 April 2018

Dear Parent/Guardian

We would like to remind students of different resources that there are in science to help them with their revision at this important time before the final GCSE exams this summer. Here are three resources that they have access too as well as links to use them at home, as well as a reminder about in school revision that is still taking place.

**ActiveLearn** [www.pearsonactivelearn.com](http://www.pearsonactivelearn.com)

Username: firstname\_lastname (e.g. Joe\_Bloggs)  
Password: Hedingham17

This contains a digital copy of the textbook that we have been utilising in lessons, as well as a breakdown of all the content that students will need to know. It works as a pop-up on the computer so please ensure that pop-ups are allowed for this site. Passwords may have changed if students have changed it initially, it can be reset using the school email address.

**Seneca Learning** <https://app.senecalearning.com/dashboard/join-class/rkEk6WvhG>

Seneca Learning is a revision site which allows students to read about information on the course, and then will ask live questions as they go through, students can use this to focus their revision on topics and areas that they have not understood. Please sign-up through the above link.

**FuseSchool** [www.fuseschool.org](http://www.fuseschool.org)

FuseSchool is a free video website that has short 3-5 minute videos on all aspects of the course content, which can be used as a refresher for students to go over the content again, or can be used to give a second insight into the topic should students not have understood it in the first place.

## Lunchtime revision sessions

We are still running lunchtime revision sessions throughout the week, staff availability and timetables can be found on classroom doors, and students are welcome to attend to ask questions or to go through content that they have found particularly difficult.

Please feel free to contact myself or any teaching members of staff for any further information about these resources.

Kind regards

Dr Finn  
Leader of Science
